## Our Appellations at a Glance

Located between 41° and 44° North, Ontario's Wine Country is situated in the heart of the world's fine wine zone. Stretching across 18,000 acres (7,284 hectares), our vineyards are made up of complex limestone-based soils created by glaciers thousands of years ago. Ontario's appellations, geographically defined wine areas, benefit directly from their proximity to three of the five Great Lakes of North America, the largest fresh water system in the world. This unique combination of latitude, lakes and limestone is the foundation on which Ontario is making globally acclaimed wines.

### Lake Erie North Shore

#### Sunny days & Cool breezes

- Ontario's southernmost appellation benefits from warm temperatures and a long growing season
- Long sunshine hours and the warm, shallow waters of Lake Erie afford excellent ripening conditions for full-bodied wines
- This appellation includes Ontario's newest sub-appellation, known as the South Islands, which includes well-known Pelee Island

### Prince Edward County

#### Lake winds & Stony soils

- Ontario's coolest appellation is a virtual island on the northeastern end of Lake Ontario with more than 800 kilometres of shoreline, including renowned Sandbanks Provincial Park
- Stony calcareous limestone soils and a short growing season produce concentrated fruit resulting in wines with bright acidity and distinct mineral character

### Niagara Peninsula

#### Diverse glacial soils & Lakeside vineyards

- Ontario's oldest wine appellation draws its cool climate character from winds off the Niagara Escarpment and Lake Ontario
- Complex glacial soils carved from the Ice Age are the backbone for exciting wines from a wide range of grapes

**This appellation encompasses 10 sub-appellations and 2 regional appellations:**

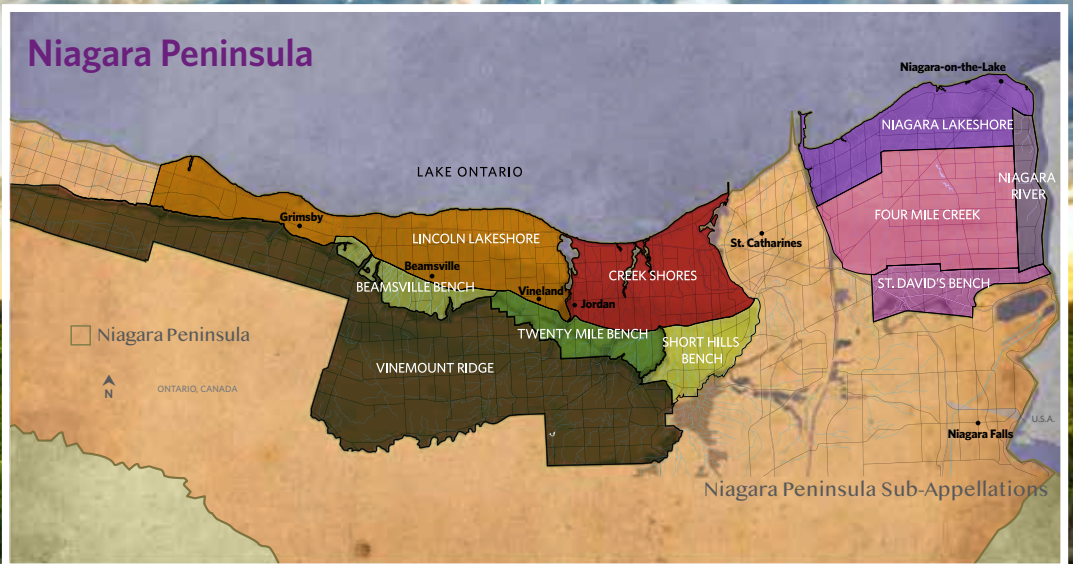

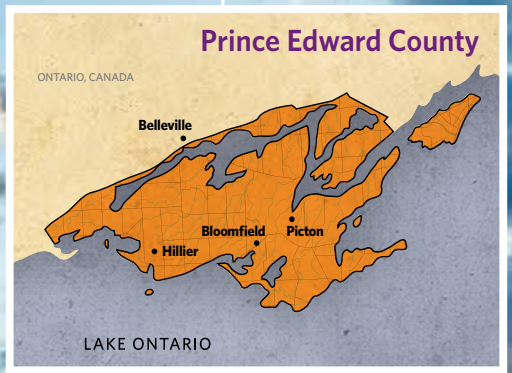

Lincoln Lakeshore, Vinemount Ridge, Creek Shores

Beamsville Bench, Twenty Mile Bench, Short Hills Bench  
(when grouped together form a regional appellation called the Niagara Escarpment)

Niagara Lakeshore, Four Mile Creek,  
St. David's Bench, Niagara River  
(when grouped together form a regional appellation called Niagara-on-the-Lake)

# Ontario's Exceptional Wines

## On the Cutting Edge of Cool!

*"Refreshing, mineral-driven, site-specific wine."*

– Ian D'Agata, Acclaimed Author and Wine Critic

### The Epitome of Cool Climate

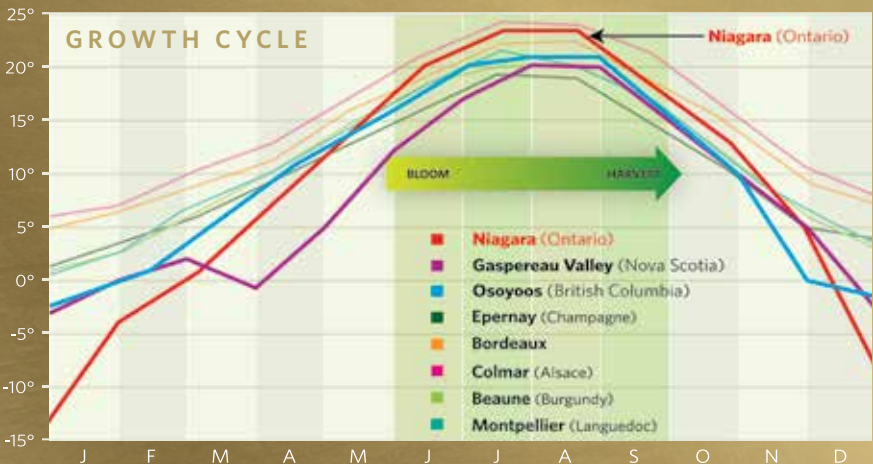

Place is everything when it comes to wine. It's where the sun, the rain, the air and the soil all meet – one special and unique place, like nowhere else on Earth. Cool climates are said to produce the most elegant and exciting wines in the world. Our place is Ontario, and it is the epitome of cool climate.

## Latitude: Poised for Perfection!

### 41° to 44° North

While you might think Ontario is too far north for growing grapes, Ontario's wine regions actually share the same latitude with other well-known wine regions including Tuscany and Oregon. Ontario's angle to the sun allows us to soak up every drop of sunshine needed to ripen classic grape varieties.

Ontario's grape-growing season compares to top internationally recognized wine regions. 110 Days + Fluctuations in Daily Temperature = Perfect Balance + Delicious Fruit Expression

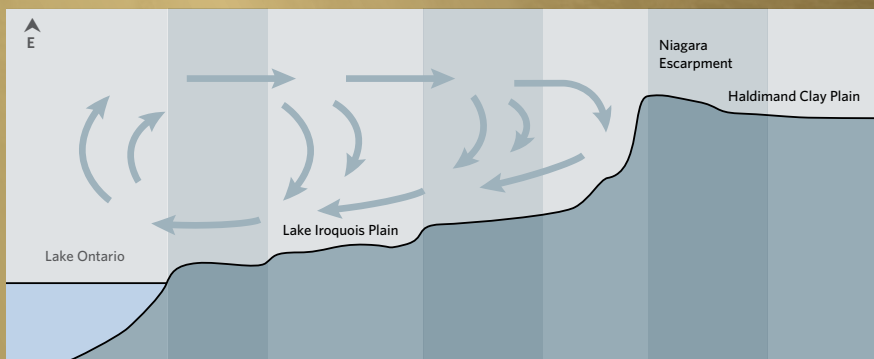

Bloom (June 10-18) to harvest (October–November) matches other wine regions of the world, with 100 to 112 days.

## Lakes: The Great Ones! Ontario's Magnificent Moderators

Lakes Ontario, Erie and Huron – part of the largest freshwater system in the world – shape Ontario's wine regions and play a major role in moderating the extremes of our continental climate. These lakes create the perfect cool climate conditions, giving our wines elegance, structure, food friendliness and good aging potential.

- Cool lake air in the spring ⇒ protects from early bud break and protects against spring frost
- Air flow during the growing season ⇒ moderates hot summer days, maintaining freshness and acidity
- Warm lake air in the fall ⇒ extends the growing season, providing perfect ripening conditions

## Limestone: It's About Our Rocks! 500 Million Years in the Making

If there were to be a "most famous" soil type for producing fine wine, it would probably be limestone. Ontario's soils in the Great Lakes basin vary from sand to clay to rock, with a high concentration of limestone from an ancient seabed that was exposed to over one million years of glacial activity. Ontario is one of the few wine regions in the world that is founded on limestone, similar to Burgundy and Champagne.

Limestone nutrients and minerality produce a special lift and elegance in our wine.

# Origin, Quality, Authenticity

The Ontario Wine Appellation Authority (OWAA) sets and enforces the standards for the wine that's made here.

At OWAA, they're appellation obsessed.

## Origin

Every VQA wine label shows where the grapes are grown – look for it between the VQA letters on the label. E.g., "VQA Twenty Mile Bench VQA."

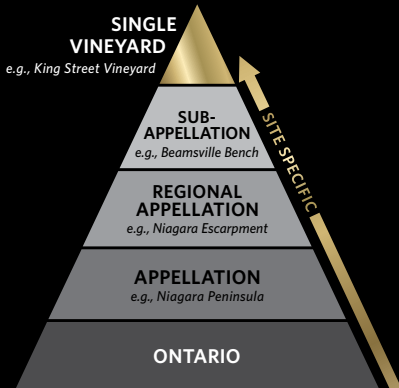

## Quality

The Ontario Wine Appellation Authority enforces winemaking standards and labelling integrity through a rigorous certification program that consumers can trust.

## Authenticity

Every VQA wine is crafted in Ontario and made with 100% Ontario-grown grapes, so you know it's an authentic local wine.

## Our Signature Varieties

Ontario produces most of the international varieties that you know and love. Our signature varieties, as well as examples of Sauvignon Blanc, Pinot Gris, Cabernet Sauvignon, Gewürztraminer, Merlot and Baco Noir, express Ontario's distinctive terroir bringing the Ontario wine story to life. Each is exciting, produced as a single varietal wine or used as the foundation for classic blends, sparkling, rosé and Icewine.

### CHARDONNAY

Ontario's cool climate produces world class Chardonnay, bar none.

- Flavours: Apple, pear & peach
- Unoaked styles are fresh; oaked styles are richer; sparkling wine made with Chardonnay is classic

### RIESLING

Quintessentially fresh, crisp & aromatic, Riesling is considered to be one of the world's greatest white wines.

- Flavours: Citrus, peach & green apple
- Ontario has a wide range of styles from dry to off-dry to sweet

### PINOT NOIR

Ontario Pinot Noir is sheer elegance, expressing the different terroir of Ontario perfectly.

- Flavours: Cherry, raspberry & earthiness
- Light to medium-bodied & food-friendly

### CABERNET FRANC

The aristocratic parent of Cabernet Sauvignon is the soul of Ontario's reds.

- Flavours: Raspberry, chocolate & spice
- Medium to full-bodied, bright acidity & silky tannins

### GAMAY NOIR

Fruity, floral & earthy, Gamay has been described as the "next big thing" in Ontario.

- Flavours: Cherry, blackberry & violet
- Bright acidity, easy drinking & flavourful

# Sparkling - a Pop of Fun!

Celebrate the everyday by popping open a bottle of VQA sparkling! Ontario's cool climate and limestone soils produce some of the world's best sparkling wines. Ontario VQA bubbly is incredibly versatile, so it's easy to match with any cuisine.

## TRADITIONAL METHOD

- One of the most celebrated methods of crafting sparkling wine
- Secondary fermentation takes place in the bottle (aging on the lees/dead yeast cells)
- The result is delicate bubbles, complex flavours and fine brioche aromas

## CHARMAT/CUVE CLOSE METHOD

- Produces sparkling wines that are fresh, vibrant and fruit forward
- Secondary fermentation takes place in steel tanks before bottling

## TRENDY EFFERVESCENTS

- Often called *Pét-Nat* or *Méthode Ancestrale*
- Bubbles usually have light and fizzy mouthfeel
- Sometimes cloudy as they are typically unfiltered
- Usually lower in alcohol and sweeter due to naturally unfermented sugars

### SWEETNESS SCALE

## Rosé Wines - la Vie en Rosé!

Fun, trendy and versatile - Ontario Rosé is hot!  
Dry or off-dry, soft and lush or crisp and structured,  
Ontario VQA Rosé is always refreshing. Rosé is perfect to enjoy  
on its own or to liven up your next dinner party.

### ROSÉ WINES

- The pink hue comes from the short maceration (a.k.a. skin contact) before the grapes are pressed
- Common varieties used are Pinot Noir, Gamay Noir, Cabernet Franc and Merlot
- Still or Sparkling?  
The choice is yours!

#### KEY FLAVOURS

Citrus

### ORANGE WINES

- *Skin Fermented white wines, or orange wines,* are made from white or pink grape varieties (such as Gewürztraminer, Vidal, Riesling and Chardonnay) fermented on the grape skins for a minimum of 10 days
- *Orange wines* often have herbal notes and tea-like characteristics
- Ontario was one of the first regions in the world to establish a *Skin-Fermented White Wine* category

# Icewine - Authentically Canadian

Luscious and luxurious, Ontario VQA Icewine has highly concentrated flavours made from grapes that have been left to freeze naturally on the vine. Ontario's ideal climatic conditions set the stage for producing some of the finest Icewine in the world.

Internationally renowned, Ontario VQA Icewine is moderate in alcohol and has vibrant acidity that is in perfect harmony with complex rich flavours of apricot and passionfruit.

- The naturally frozen grapes are typically harvested between December & February
- It must be  $-8^{\circ}\text{C}$  or colder for both picking and pressing of Icewine grapes
- The remaining juice is incredibly concentrated, sweet and rich which is then fermented to make Icewine

## *Ontario produces over 95% of Canada's Icewine*

- Vidal, Riesling and Cabernet Franc are the most common varieties
- Gewürztraminer, Cabernet Sauvignon and Chardonnay are produced in small quantities
- Ontario has been producing Icewine every year for over 35 years
- Icewine is moderate in alcohol and medium- to full-bodied, depending on the winery's house style

You need **10** Icewine grapes to make 1 single ml of Icewine.

## Icewine – Liquid Gold

Icewine is best served well chilled at 10-12°C. The ideal serving size is 1.5 oz per person. Icewine is not just a dessert wine! This *liquid gold* is perfect on its own, paired with your favourite meal or even in a variety of cocktails.

### Pairings

**SAVOURY:** Salty foods enhance Icewine's fruit flavours, while the sweetness of the wine softens the sharp saltiness of the dish.

**SPICY:** The cool, fruity sweetness of VQA Icewine takes the heat out of the dish, and maintains the flavours of the spices.

**SWEET:** When pairing dessert with VQA Icewine be sure the dessert is sweeter than the wine to allow both the wine and the dish to shine.

### Cocktails

Enjoy VQA Icewine in your favourite cocktail to shake up your happy hour.

# Winemaking 101

Winemaking is an art – a delicious masterpiece in a bottle. Ontario VQA winemakers and vintners bring their passion and dedication to every bottle they craft. Visit your favourite winery and book a tour today to see the transformation from grapes to wine first-hand.

## *Journey of a Table Wine Starts Here*

### **Harvesting/Picking**

When the grapes are at optimal ripeness they are picked, often by hand, in order to choose the best clusters for the wine.

### **Sorting/Crushing**

Harvested grapes are then sorted to remove leaves or damaged berries. The sorted grapes are gently crushed to break the skins of the grapes or left whole, depending on the wine style.

### **Fermentation**

The fermentation process begins when yeast becomes active and starts to consume the natural sugars in the grape juice, and starts to convert them into alcohol. Depending on the wine style, this process may or may not include contact with grape skins.

### **Pressing**

**Red Wines:** After fermentation is complete and the desired colour and flavours are achieved the wine is gently pressed to remove the skins, seeds and pulp.  
**White Wines:** Immediately after the de-stemming/crushing step the juice is gently pressed to remove the skins, seeds and pulp.

### **Bottling**

The wine is transferred into glass bottles, labelled and ready to enjoy!

### **Fining/Filtering**

The wine is sometimes fined and filtered to remove any unwanted particles. Some winemakers choose to skip this step, resulting in cloudier and often-times more “rustic”-style wines.

### **Aging**

Some wines are aged in oak barrels to develop more complex and balanced flavours; others are aged in stainless steel tanks. This step will depend on the grapes used and how the winemaker wants the wine to taste. Aging can last from a couple of months to many years.

LEED is a green building rating system. It promotes global adoption of green building and development practices through the implementation of universal performance criteria. It is administered in Canada by the Canada Green Building Council (CaGBC). Ontario is home to the world's first LEED-certified winery.

# Sustainable Winegrowing Ontario Certified

Wineries and vineyards committed to sustainability have taken their practice to the next level and are Sustainable Winegrowing Ontario (SWO) Certified.

Wineries that produce Sustainable Winegrowing Ontario Certified wines are identified by the green leaf icon  in the Wine Country Ontario Travel Guide. You will also find the green leaf icon on the back label of their certified sustainable wines.

## ENVIRONMENT

Wineries that produce *SWO Certified wines* are audited annually on use and conservation of water, reduction in waste and wastewater and implementation of energy efficiency programs, including the use of sustainable power sources. They are also committed to preserving local vineyards for generations to come and being good stewards in land conservation.

## ECONOMY

*SWO Certified wines* are always VQA, meaning they are locally crafted from 100% Ontario-grown grapes. These wines play an integral role in Ontario's overall economic health by helping to preserve local economies and drive growth for tourism.

## COMMUNITY

Wineries that produce *SWO Certified wines* need to be good neighbours and promote social responsibility and diversity in the workplace. They also give back to their communities and show a commitment to producing authentic regional wines that are a cornerstone of local food cultures.

# Wine Tasting 101

One of the best parts of visiting Wine Country is the tasting experience.

Every winery is unique but here are a few guidelines to get the most of any tasting experience. And remember there are no "wrong" answers – tasting is subjective and a lot of fun!

## **Wine Aromas:**

*Fruity, Floral, Herbal, Spicy, Mineral, Sweet*

## **Tannin:**

*The astringency or "chewiness" of the wine that comes from grape skins and/or oak barrels.*

## **Sweetness and Acidity:**

*Natural to the grapes – acidity gives freshness and balances any sweetness.*

*Be sure to book your reservation prior to visiting the winery*

**SEE** Hold your glass up to the light and note the colour of the wine, for hints about the grape variety, age or vintage.

**SWIRL** Gently swirl the wine to release the aromas, and see how it coats the glass.

**SMELL** Stick your nose in the glass and take it all in. Think about the aromas you smell – from berries, to spice, to mineral notes.

**SWISH** Let the wine contact every part of your tongue to maximize the experience. Is it sweet or dry? Light or full-bodied? What flavours can you identify?

**SAVOUR** (or spit) – Take a few moments to reflect and enjoy. How does the wine "finish" – is it easily approachable or more complex? Remember that spitting isn't considered rude, and most wineries have spittoons for this purpose.

## Trending

The world of winemaking is ever-changing and evolving. Here are a few terms you may have seen or heard but may not know what they mean. Have a question about a wine or wine style? Don't be shy – ask one of our Wine Country Ontario VQA Ambassadors.

### Organic

- Certified Organic uses 100% of grapes grown without chemical pesticides, herbicides or synthetic fertilizers
- Compost, compost teas, green manure and cover crops are often used as fertilizer

### Biodynamic

- Generally certified through *Demeter Farm Standard*
- The guiding principle is that the farm is a living organism
- Self-contained, self-sustaining, following the cycles of nature

### Vegan

- Uses only vegetable-based alternatives (no animal products) for winemaking processes
- Most wines are vegan-friendly but check with the winery
- Several Ontario wineries are *VegeCert* certified

### Gluten-Free

- Most wines are gluten free, but check with the winery to confirm
- Gluten can be used in the fining process, but this is rare

### Natural Wines

- “Natural” has no legally defined meaning or official certification or government regulations
- Applies to wines made with the loose concept of “nothing added, nothing taken away”

## 2 TASTE RESPONSIBLY

- Wine is a beautiful thing, but alcohol should be consumed in moderation
- Choose a designated driver or hire a tour company
- You don't have to swallow every drop and spittoons are provided in the tasting rooms
- Visit one of the fabulous restaurants en route to prevent tasting on an empty stomach

## 3 BE ADVENTUROUS

- Take the opportunity to try something new and break out of your comfort zone
- Ask questions to learn and discover all there is to know about VQA wine
- Don't be shy - our wine ambassadors love to talk wine

## 4 BE RESPECTFUL

- Wineries are working farms, so please don't enter vineyards or production areas without permission
- Our small communities love welcoming guests but are also home to families and residents; please follow local laws and clean up after your visit so it remains beautiful

## 5 LOVE IT? BUY IT

- Many of the locally crafted VQA wines are in short supply and may not be available in your local liquor or grocery store, so take the opportunity to purchase directly on-site at the winery
- Be sure to inquire about delivery and wine club services too!

## Ontario's Southern Belle

Situated on Canada's southernmost point, this region, with its ample sunshine and cooling lake breezes, makes ideal conditions for one epic wine region. The long growing season paired with the most heat units in all of Ontario creates wines with the perfect balance of ripe fruit and bright acidity.

The beautiful beaches, historic laid-back towns and outdoor adventures round out a southern getaway like no other.

## ALTON FARMS ESTATE WINERY

The pioneer winery in the Huron Shores wine region, Alton Farms Estate Winery was established in 2005 on a 90-acre property, with a 7-acre vineyard. They hand-craft all of their wines using sustainable practices in the vineyard and in the cellar to produce premium wines such as Cabernet Sauvignon, Riesling, Sauvignon Blanc, Marechal Foch and more. Abundant wildlife, nature trails and nearby sandy beaches along the shores of Lake Huron provide a beautiful setting for wine tastings, tours and special events.

### 2027 CELLARS

2027 Cellars was started in 2007 by Winemaker Kevin Panagapka and his wife, Jodie. Named after their grower number, they focus on terroir-driven, single-vineyard Chardonnay, Pinot Noir, Riesling, Pinot Gris and Cabernet Franc from the Niagara Escarpment. The focus on "terroir" and the individuality of each single vineyard creates wines with a sense of place, quality and personality.

**FLAT ROCK CELLARS**

Since opening in 2005, Ed Madronich has injected fun and enthusiasm into both the wine and the winery experience – so no wonder this is the home of Twisted, the crowd-pleasing white blend. The five-level gravity-flow winery sits atop the Escarpment with an incredible 360° view of the vineyards, Lake Ontario and the Toronto skyline. Chardonnay and Pinot Noir are the winery's focus but the Rieslings, especially Nadja's Vineyard, are consistently recognized among Canada's best.

### RENNIE ESTATES

The Rennies are micro-vintners who own one of the oldest vineyard sites on the Beamsville Bench. Marco Piccoli and Graham Rennie hand-craft site-specific Pinot Noir and Chardonnay to capture and reflect the unique terroir of the Rennie vineyard and hand-harvest the Rennies' best Bordeaux varietal fruit to produce rich, full-bodied and balanced "Super Niagara" wines utilizing a proprietary, natural Appassimento process. You can taste and purchase Rennie Estate Wine at Niagara Custom Crush Studio (The Crush).

### RIDGEPOINT WINES

One of the first sibling winemaking teams in Niagara, Mauro Scarsellone and Anna Gottardo, is now celebrating 28 years in Niagara. Focusing on Old World Italian traditions, this duo planted Nebbiolo and Corvina among their vineyard, making Ridgepoint one of a handful of Ontario wineries making wine in the Appassimento and Ripasso styles. They recently added Sparkling wines to their portfolio, which they are sure will delight. These wines accompany perfectly their casual Italian food offered in Ridgepoint's restaurant.

## Where Our Roots Run Deep

The town of Niagara-on-the-Lake is the heart of Niagara's wine scene.

This vibrant area is rich in centuries of history where tradition and innovation live in harmony. This close-knit community is the largest wine producing region in Niagara and home to well-known, stately wineries as well as smaller craft wineries - and everything in between. The unique shopping, exceptional dining, live theatre, and more create the perfect getaway all in one unforgettable place.

*“Over the past decade, the wines of Canada have reached a new level in terms of quality, style and consistency. Chalk that up to investment on the part of talented, passionate vintners, who are planting more vinifera grape varieties and exploring vineyard-designated reds and whites.”*

— Bruce Sanderson, *Wine Spectator*

### COLANERI ESTATE WINERY

A family-owned Romanesque-style winery with a panoramic view of the escarpment and vineyard that produces premium VQA wines from hand-harvested grapes. The large portfolio of red, white and dessert wines are mostly made in the traditional Italian Appassimento method of drying grapes, which include Ripasso, Amarone and Recioto styles. The Piazza creates a picturesque atmosphere transporting you to the heart of Italy. That feeling lingers as aromas from the production area greet you for your indoor personalized tasting experience.

# From Niagara Falls to New Flavours

The Niagara Peninsula appellation is bounded by Lake Ontario on the north, the Niagara River on the east, the Welland River on the south and Highway 20/56 on the west. Niagara Falls, while best known for its famous Horseshoe Falls and casinos, is the newest hotspot for wine in the Peninsula. Two new vineyards now call the area home, so it's time to add wine tastings to the list of illustrious attractions in this popular city.

## LUNDY MANOR WINE CELLARS

A stately presence arrived on the Niagara scene in 2018 with the opening of Lundy Manor Wine Cellars. This estate winery is reminiscent of an Old-World Chateau and is located on the historic Lundy's Lane. It features a selection of wines crafted from premium grape varieties that are cellared on site. It's recommended that visitors reserve tasting sessions ahead of their arrival to guarantee availability. Book your wedding or private event, email for details.

VQA WINES OF  
ONTARIO

## The Last Word

There has never been a better time to show your love for local. Ontario's Wine Country and VQA wines are leading the world in the cool climate wine scene. Don't miss the opportunity to purchase your favourite wines directly from the winery - either in person or online. And if you purchase from the LCBO, be sure to look for VQA on the label so you know it's made from 100% Ontario-grown grapes and 100% locally crafted.

### Buy Direct

Many of the wines you taste in Wine Country are produced in small quantities so be sure to pick up your favourites before they disappear.

### Buy Online

Can't make it to Wine Country? Visit your favourite winery's website to buy online directly or [winecountryontario.ca](http://winecountryontario.ca) for easy access to wines available for purchase. Wineries are happy to ship wine directly to your door.

### Wine Clubs

Many wineries offer Wine Clubs where you receive wine shipments throughout the year including back vintages, small-lot wines and invites to special events. Look for the Wine Club symbol  in our guide and check with the winery for details.

### Travelling with Wine

If travelling by car, secure the wine in a cooler or box and out of direct sunlight or extreme temperatures. If travelling by plane, ensure the wine is well secured in strong shipping packaging to avoid breakage.

### Travelling to the United States

When travelling from Canada to the U.S. each adult 21+ is allowed one litre of wine. Any additional wine is subject to applicable Customs duty and IRT.\*

\*Please verify with Customs for the most current requirements or new policies.

The Wine Marketing Association of Ontario is dedicated to promoting VQA Wines of Ontario - both the vintners and the unique qualities of our authentic VQA wines that are made exclusively from 100% Ontario-grown grapes.

Wine Country Ontario is dedicated to promoting Ontario's wine-growing regions - from the wines and wineries themselves to the complete experience of each destination: local cuisine, year-round activities and warm hospitality. This Travel Guide has been compiled for the benefit of travellers to Wine Country Ontario destinations. We hope that the listed services will enhance your Wine Country experience.

Please note, however, that Wine Country Ontario or the Wine Marketing Association of Ontario cannot be held responsible for the actions, claims or policies of any of its advertisers, including wineries listed in the Guide. Every effort has been made to ensure accuracy in the information provided, but hours of operation, products, vintages and services are subject to change without notice.

The Wine Marketing Association of Ontario is a non-profit association that markets Ontario's vintners and the unique qualities of our authentic, 100% VQA wines. The Wine Marketing Association of Ontario would like to thank the Government of Ontario for its ongoing support of this publication and of Ontario's VQA wine industry.
